

APP

Coalition member since 2021 | As of September 2024, paper, pulp, and fibre-based packaging (PPP) is a material commodity for APP.

The following table includes a list of each Key Performance Indicator (KPI) for each material commodity, along with the company's 2023 reporting record. The record includes the following responses:

- “Yes” indicates a company is reporting against a KPI and reporting quantitatively where indicated
- “Yes – narrative reporting” indicates a company is reporting qualitatively against a quantitative KPI
- “Not yet reporting” response indicates a company is not yet reporting on a KPI
- “N/A” indicates a KPI was not established in a given year

Companies have also provided information on their performance against appropriate KPIs, along with methodologies and targets. This information has been self-reported by companies and verified by Proforest.

Links are provided to information when a company is reporting (“Yes”) against a public information requirement, and when a company is reporting qualitatively (“Yes – narrative reporting”) against a quantitative KPI.

For a full methodology on the Forest Positive Coalition's reporting process, including a list of all KPIs and public information requirements, visit transparency.tcgforestpositive.com

PPP (Pulp, paper and fibre-based packaging)	Publicly reported value and method provided in 2023	Will your company be able to publicly report on this KPI by June 30th? (Select option from the dropdown)	Publicly reported value or narrative for 2024 reporting on 2023 data	Methodology for value reported	Scope (materials/products in scope of the reported value, and proportion of total commodity volume that scope represents)	Link to publicly available source	Target (Optional)
1.0 - Element 1: Own Supply Chain							
1.1 - PPP Sourcing Policy including commitment to the forest positive goals	APP's Sustainability Commitments and Policies: FCP, FPPP, HR Policy, Environmental Policy, H&S Policy, etc. APP's Forest Conservation Policy (updated per 30 June 2022) https://app.co.id/documents/20123/0/220615+APP's+Sustainability+Commitment+2022_wloc-date.pdf/4b8cde46-47f5-4f12-949b-5f14ad5778d0?t=1681203735149	Yes	Establishing improved commitment and policy which covers HCS/HCVS, Peatland, Zero Deforestation, Human Rights and Free Prior and Informed Consent (FPIC): Sustainability Commitment, HR Policy, Environmental Policy, H&S Policy, CSR Policy, etc. which have been updated per 30 June 2022, while the Forest Conservation Policy was established since 2013. Regarding fibre sourcing and suppliers, The Fibre Procurement and Processing Policy (FPPP) ensures that all fibre raw materials used by APP Group originate from legal and sustainable sources. FPPP also prohibits the use of raw materials from converted natural forests. This policy also establishes the termination of relationships with non-compliant suppliers. Through FPPP, we ensure that every aspect of our raw material supply chain adheres to all local and international regulations concerning responsible forestry practices.		As a pulp and paper manufacture HQ in Indonesia, this Policies applies to whole APP's operations in Indonesia, including suppliers and partners.	1) APP's Sustainability Commitments and Policies: a. Sustainability Commitment: https://rb.gy/sGoxz b. FCP: https://rb.gy/fihima c. FPPP: https://rb.gy/83ttvd d. Environmental Policy: https://rb.gy/y3ogb6 e. Fire Prevention & Management Policy: https://rb.gy/imvcp1 f. etc. More information of our other Sustainability policies are publicly available in our website https://app.co.id/about-us 2) APP Sustainability Report: Forest Policy and Commitments, page 69 (https://link.app.co.id/app-sr-2023/)	
1.2 - Timebound action plan summary	2022 Sustainability Report - The Year at a Glance: page 4 - Target and Progress: page 29-34	Yes	Deforestation Free since 2013 - Timebound action plan to be forest positive is defined per 10-year timeline through Sustainable Roadmap Vision (SRV) 2030's indicators under 3 pillars: Production, Forest and People. Each evaluation is conducted quarterly and annually, and the results are discussed with the operational and management parties. Quantitative progress of the targets in each Pillars and its Goals are updated and reported annually in the Sustainability Report, especially for Forest pillar. Currently, we are on track to complete the implementation of systems and processes to deliver a responsible and sustainable supply chain. APP has been maintaining a zero deforestation supply chain through its Forest Conservation Policy 2013.	Cascading down from the 2030 target into yearly based goals. The achievement reported under APP's Sustainability Report.	100% Suppliers, 100% volume.	2023 APP Sustainability Report: (https://link.app.co.id/app-sr-2023/) - Progress for Production (page 29), Forest (page 30) and People Pillars (page 31) - Fiber Procurement Process, page 86-88 SERA: https://sustainability-dashboard.com/in/forest	Achievement of increasing recycled fiber composition among APP products reflects effective actions to reduce the usage of natural resources (virgin fiber), re-uses materials which have been used by consumers – contributing to the development of a circular economy and saves materials from being landfilled.

PPP (Pulp, paper and fibre-based packaging)	Publicly reported value and method provided in 2023	Will your company be able to publicly report on this KPI by June 30th? (Select option from the dropdown)	Publicly reported value or narrative for 2024 reporting on 2023 data	Methodology for value reported	Scope (materials/products in-scope of the reported value, and proportion of total commodity volume that scope represents)	Link to publicly available source	Target (Optional)
1.3 - % of total commodity volume that is in scope of Element 1 reporting (New KPI)	NA - new KPI	Yes - Quantitative	100% of total commodity volume are included in the disclosure. - Our Sustainability Roadmap: Vision 2030 (SRV 2030) sets specific and measurable targets for each pillar to achieve long-term sustainability for our overall business by 2030 and covers overall APP Group. - APP requires all its pulpwood suppliers—both current and potential—to comply with the Forest Conservation Policy (FCP) and Responsible Fibre Procurement and Purchasing Policy (RFPPP); these policies provide a framework for the processes and criteria used to evaluate suppliers' compliance our approach to forestry. These initiatives are enacted to ensure our operations are free from deforestation.	N/A (only relevant for exclusions)	100% Suppliers, 100% volume.	2023 CDP Report (F1.1): https://app.co.id/documents/20123/0/CDP+Forest+Report+2023.pdf/e3a079d6-c1c6-783a-9682-1757ab8d013f? t=1718935587495	
1.4 - % recycled, % virgin fibre	45% recycled fibre, 55% virgin fibre. Recycled and total fibre (total fibre = virgin + recycle fibre amount) . Fibre sourcing for mills. 100% from total scope of commodity.	Yes - Quantitative	48% recycled fibre, 52% virgin fibre	The percentage is based on the total material used for production.	100% from total scope of commodity.	APP's Sustainability Report: (https://link.app.co.id/app-sr-2023/) Forest Progress: page 30 Recycle Fiber Composition: page 112
